EDUCATION

Indian Institute of Information Technology, Ranchi, India 2019 - 2023

Bachelor of Technology, Electronics and Communication Engineering *CGPA : 7.87*

EXPERIENCE

Software Engineer Aug 2024 - Sept 2026
CGI *Bangalore/Chennai, India*

- CGI is a global IT and business consulting company serving 5,500+ clients worldwide with 94,000+ professionals across 400+ locations and FY2025 revenue of **$11.2B USD**.
- Engineered **CGI Wealth360**, a multi-tenant wealth-management platform for financial advisors and PM across 3+ banks (500k+ accounts), using Camel BFFs, Spring Boot APIs, MyBatis/Oracle, RBAC, and ActiveMQ.
- Modernized and scaled **CGI Wealth360** backend services using Java, Spring Boot, MyBatis, Oracle SQL, and Apache Camel, deploying robust RESTful APIs and enterprise integration pipelines across a hybrid architecture.
- Delivered 20+ core enhancements to Management Fees and Portfolio Processing systems, ensuring 99.99% accuracy in financial validations and high-precision transaction processing for 500,000+ client accounts.
- Optimized Oracle SQL and MyBatis mappers, reducing execution time by 70% across multi-terabyte databases.
- Built scalable Apache Camel routes, enabling thousands of concurrent downstream API with zero data loss.
- Resolved 50+ critical production defects via RCA and authored JUnit test, preventing 15% of regressions releases.

Software Development Engineer (Freelance) Apr 2023 - Jul 2024
E-commerce shopify - almaraiindia *Remote*

- Stabilized 10+ Java/MySQL backend modules through bug fixes and refactoring, improving reliability of APIs.
- Developed and enhanced 10+ responsive web pages for client projects using HTML, CSS, media queries, JavaScript, and Angular, improving user experience across desktop and mobile devices.
- Delivered frontend navigation, responsive layouts, and form validation, reducing UI issues by 30% in client UAT.
- Worked with clients to define requirements and ship on time, resolving 50+ bugs across frontend and backend.

PROJECTS

Ride Sharing Application. Designed and developed a ride-sharing system in Java using OOP, SOLID, and Strategy/Observer Design Patterns. Implemented nearest-driver allocation based on location proximity, support multiple vehicle types, 3 fare strategies (Standard, Shared, Luxury), ride lifecycle, and real-time notifications. Improved maintainability through package architecture and validated business logic with JUnit 5 with 90%+ code coverage.

SKILLS

Languages & Core	Java, C++, JavaScript, OOP, JVM, DSA, SDLC and System Design
Backend & Data	Spring Boot, Spring Framework, REST APIs, Microservices, Apache Camel, Apache Kafka, MyBatis, Oracle SQL, MySQL, Swagger/OpenAPI
Tools & Quality	Maven, Jenkins, Git, Bitbucket, Confluence, Postman, Linux, JUnit, SonarLint, IntelliJ Idea

LEADERSHIP / EXTRA-CURRICULAR ACTIVITIES

- Solved 400+ DSA problems on LeetCode, Oracle Java Certification.
- Authored technical onboarding guides, architecture runbooks, and domain documentation, noticeably reducing developer ramp-up time and local environment setup friction.
- Mentored junior developers and interns on Java, Spring Boot, REST APIs, and enterprise code quality through constructive code reviews and architecture walkthroughs.
